

Octagon Single Pedestal Picnic Table with Diamond Pattern

\$883.⁰⁰

Product Description

It can be hard to mow under and around tables placed in grassy areas, but with the Octagon Single Pedestal Picnic Table mowing under the table has never been easier - thanks to the compact frame and raised seats of the pedestal frame. The table and seats have a specialized thermoplastic coating which helps to prevent extreme temperatures, vandalism, and rust. It is also UV and fade resistant, so that whatever color your customer chooses from the custom color options is sure to stay bright and vibrant even after years of outdoor use. The Octagon Single Pedestal Picnic Table with Diamond Pattern available with either an in-ground mount or a surface mount, making it adaptable to just about any terrain. The table comes with two ADA accessible options: two seats with two accessible sides, or three seats with one. Eliminating excess permanent seats leaves room for wheelchair-users.
