

Meets National Standards for: ✓ ASTM F1487-17 ✓ CPSC Guidelines #325

Product Description

As the popularity of your playground starts to grow, it may become necessary for your swing set to grow as well. Luckily, this 10 feet high Elite Tripod Swing - Add a Bay kit makes expanding your swing a bit easier. The clever design of the swing set makes it possible to add additional bays, which will increase the capacity of the set by two swings each. This kit includes an extra length of top rail, and a T-post which can be used to connect it. The set also comes with a pair of black rubber belt seats and the hardware to attach them, but if you have your own swing seats in mind, the kit can be ordered without them. More swings on your playground means that kids will have even more opportunities to have fun.
